Community Care Family Care Partnership Program (HMO SNP)

Provider Directory

RACINE AND
KENOSHA COUNTIES 2011

The Provider Directory contains a list of Community Care network providers for the Community Care Family Care Partnership Program (HMO SNP). This directory contains the Partnership network of providers for Racine and Kenosha Counties. It is current as of May 2011. Providers may have been added or removed from the Community Care Provider Network after this directory was printed. We do not guarantee that each provider is still accepting new members. To get the most up-to-date information about our network, you can visit www.communitycareinc.org. You can also contact your Team or call Community Care at 866-992-6600 (TTY 800-947-3529).

INTRODUCTION

This directory provides a list of Community Care's Family Care Partnership Program (HMO SNP) (Community Care) plan providers. This plan is offered by Community Care Health Plan, Inc.

Community Care contracts with the Centers for Medicare and Medicaid Services (CMS) and the Wisconsin Department of Health Services (DHS) to offer a Medicare Advantage Special Needs Plan that is fully integrated with the Wisconsin Medicaid Family Care Partnership Program. Community Care is a Health Plan with a Medicare contract.

To get detailed information about your health care coverage, please see your Evidence of Coverage/Member Handbook.

If you have special needs, this document may be available in other formats.

Choosing a Primary Care Physician

When you become a member of Community Care, you will have to choose one of our plan providers that are listed in this directory to be your **Primary Care Physician** (PCP). The term "PCP" will be used throughout this directory. Generally, you must get your health care coverage from your PCP.

Your PCP is a physician who meets state requirements and is trained to give you basic medical care. Your Care Team will also include a Community Care Nurse Practitioner (NP) who will provide routine and basic primary care and coordinate your health care needs with your PCP.

You will get your routine or basic care from your PCP or your Community Care NP. Your Care Team, including your NP will also coordinate the rest of the covered services you need. In most cases, you must see your Community Care NP or PCP to get a referral before you see any other health care provider.

The “plan providers” listed in this directory have agreed to provide you with health and long-term care services and prescription drugs. You may go to any of our plan providers listed in this directory. However most services require getting approval ahead of time. If you have been going to one plan provider, you are not required to continue going to that same provider.

In some cases, you may get covered services from non-plan providers. Care or services you get from non-plan providers will not be covered, except for ambulance services, emergency care, including hospital care after you are stable (known as post-stabilization), urgently needed care, renal dialysis (kidney), and any services which were ordered covered through an appeals process.

What is the service area for your Community Care plan?

Racine and Kenosha Counties are the service area for your Community Care Partnership plan.

How do you find Community Care providers in your area?

When you enroll into Community Care’s Partnership program, you choose a PCP and his/her affiliated Network of medical specialty services. The network includes the specialty physicians that your Care Team can refer to. Each plan PCP has certain plan specialists they use for referrals. The Community Care network specialists you can use will depend on which person you chose to be your PCP. If there are specific specialists you want to use, find out whether your PCP refers patients to these specialists. If there are specific hospitals you wish to use, find out whether your PCP uses the doctors at these hospitals. You can change your PCP at any time if you want to see a plan specialist that your current PCP does not refer to.

You should consult your Community Care Team to make sure the PCP you have chosen is accepting new patients. Generally, you see your Community Care NP or PCP first for most of your routine health care needs. There are only a few types of covered services you can get on your own, without seeing your Community Care NP or PCP first. You can change your PCP at any time.

Your Community Care NP can also help you arrange or coordinate covered services. This includes x-rays, laboratory tests, therapies, specialists, hospital admissions, and follow-up care. Your PCP also contacts other plan providers for updates about your care and/or treatment.

If you need certain types of covered services or supplies, your Community Care NP or team must give approval ahead of time. This is called getting prior authorization. Your Community Care NP and PCP must give you a referral to see a specialist.

How Services are Selected and Authorized

Community Care is responsible for helping you achieve your desired outcomes through the development and implementation of your member-centered plan. Care plans are created using the Resource Allocation Decision Method (RAD). The RAD will help you and your Care Team identify your needs and the services necessary for you to achieve your outcomes. Authorized services must help you achieve your outcomes and be cost effective. Your Care Team is responsible for authorizing all services. For more specific information, consult your Evidence of Coverage/ Member Handbook.

You, your PCP, your NP, additional professionals and others that you select will be part of your Interdisciplinary Team (Care Team). Your Care Team is responsible for authorizing all services that you receive. If you receive care that has not been authorized by your Care Team, you may have to pay for these services yourself.

Using the Provider Network

Community Care's Provider Network includes a broad range of providers committed to helping you achieve your outcomes. All of the network providers have a contract with Community Care. The "plan providers" listed in this directory have agreed to provide your health and long-term care coverage. You may go to any of the plan providers listed in this directory. However, most services require prior authorization. If you have been going to one plan provider, you are not required to continue going to that same provider.

You and your Care Team will access these providers when implementing your care plan. Our network of providers has been chosen because they will support you in getting the outcomes you want to achieve and they are willing to work with us in a cost effective manner. If you are unhappy with any provider, you have the right to request a new provider, but you first must discuss this with your Care Team.

Your Community Care NP can also help you arrange or coordinate covered services. This includes x-rays, laboratory tests, therapies, specialists, hospital admissions, and follow-up care. Your PCP also contacts other plan providers for updates about your care and/or treatment.

If you need certain types of covered services or supplies, your Community Care NP or Care Team must give approval ahead of time. Your Community Care NP and PCP must give you a referral to see a specialist.

It is very important to get a referral from your team before you see a plan specialist. However, you don't need to get a referral for certain services, such as women's health services. If you don't have a referral before you get services from a specialist, you may have to pay for these services yourself. If the specialist wants you to come back for follow-up visits, be sure your prior authorization covers additional visits. If you receive care from an out-of-network provider and you have not received prior authorization, you may have to pay for these services yourself.

How do you obtain services from the Community Care long-term care providers in your area?

This directory also lists the long-term care providers in your area. If you need to access any of the long-term care providers, your Community Care NP or Care Team must give approval ahead of time. This is called prior authorization. After your Care Team has authorized care, they will work with you to arrange the long-term care that you need

All providers listed in this directory participate in Medicaid and Medicare.

Getting care if you have a medical emergency

When you have a “medical emergency,” you believe that your health is in serious danger. A medical emergency can include severe pain, a bad injury, a sudden illness, or a medical condition that is quickly getting much worse.

If you have a medical emergency:

- **Get help as quickly as possible.** Call 911 for help or go to the nearest emergency room, hospital, or urgent care center. Call for an ambulance if you need it. You do *not* need to get approval or a referral first from your Care Team or PCP.
- **As soon as possible, make sure that your Care Team has been told about your emergency.** We need to follow up on your emergency care. You or someone else should call your Care Team to tell us about your emergency care, usually within 48 hours. Call the number on the back of your membership card.

If you have an emergency, your Care Team will talk with the doctors who are giving you emergency care to help manage and follow up on your care. The doctors who are giving you emergency care will decide when your condition is stable and the medical emergency is over.

After the emergency is over you are entitled to follow-up care to be sure your condition continues to be stable. Your follow-up care will be covered by our plan. If your emergency care is provided by non-network providers, your Care Team will try to arrange for network providers to take over your care as soon as your medical condition and the circumstances allow.

Getting care when you have an urgent need for care

“Urgently needed care” is a non-emergency situation when:

- You need medical care right away because of an illness, injury, or condition that you did not expect or anticipate, but your health is not in serious danger.
- Because of the situation, it isn’t reasonable for you to obtain medical care from a network provider.

What if you are in the plan's service area when you have an urgent need for care?

Whenever possible, you must use our network providers when you are in the plan's service area and you have an urgent need for care.

What if you are outside the plan's service area when you have an urgent need for care?

Suppose that you are temporarily outside our plan's service area, but still in the United States or its territories. If you have an urgent need for care, you probably will not be able to find or get to one of the providers in our plan's network. In this situation (when you are outside the service area and cannot get care from a network provider), contact your Care Team. Our plan often covers urgently needed care that you get from any provider in this situation.

Our plan does not cover urgently needed care or any other care if you receive the care outside of the United States or its territories.

Situations in which you should ask Community Care to pay our share of the cost of your covered services or drugs

There may also be times when you get a bill from a provider for the full cost of medical or long-term care you have received. Usually, you should send this bill to us instead of paying it. We will look at the bill and decide whether the services should be covered. If we decide they should be covered, we will pay the provider directly.

When we receive your request for payment, we will let you know if we need any additional information from you. Otherwise, we will consider your request and decide whether to pay it and how much we owe.

If we decide that the care or drug is covered and you followed all the rules for getting the care or drug, we will pay for our share of the cost.

- If we decide that the care or drug is *not* covered, or you did *not* follow all the rules, we will not pay for our share of the cost. Instead, we will send you a letter that explains the reasons why we are not sending the payment you have requested and your rights to appeal that decision.

Contacting Community Care

If you have questions about Community Care, please contact your Care Team or call our Customer Service Department at 866-992-6600, from 8:00 a.m. to 8:00 p.m. seven days a week. If you are deaf or hard of hearing and using a TTY machine, dial the Wisconsin Relay System's toll free TTY access number: 711, or if no answer: 1-800-947-3529 and a Wisconsin Relay Communication Assistant (CA) will answer your call. Provide the area code and phone number of your Care Team to the CA and they will connect you with someone who can help you. There is always a doctor or nurse practitioner on call to help you. You can also visit our website at www.communitycareinc.org.

LIST OF PLAN PROVIDERS

PHARMACY NETWORK

This section provides a list of Community Care’s network pharmacies. All network pharmacies may not be listed in this directory. Pharmacies may have been added or removed from the list after this directory was printed. To get current information about Community Care network pharmacies in your area, please visit our web site at www.communitycareinc.org. You can also contact your Team or call Community Care at 866-992-6600 (TTY 866-288-9909).

We call the pharmacies on this list our “network pharmacies” because we have made arrangements with them to provide prescription drugs to Plan members. A network pharmacy is a pharmacy where members obtain prescription drug benefits provided by Community Care. In most cases, your prescriptions are covered under Community Care only if they are filled at a network pharmacy. Once you go to one, you are not required to continue going to the same pharmacy to fill your prescription. You can go to any of our network pharmacies. We will fill prescriptions at non-network pharmacies under certain circumstances as described in your Evidence of Coverage.

Community Care Partnership provides medications through its Medicare Part D Program. In order to ensure you receive the best possible medication services, Community Care has pharmacists, PCPs and other prescribers who work with you to make sure you are on the right medications for your medical conditions. They also carefully monitor the interaction between all of the medications you are taking to prevent side effects.

Your Community Care Team and the pharmacy will work with you to provide the best pharmaceutical services possible including periodic reassessments of the medications you are receiving, monitoring for interactions and developing systems to help with the adherence to your medication regimen. You can most easily obtain your medications by calling into your team pharmacy number to obtain refills or if you have any questions about your medications. You can also speak to your nurse or Community Care PCP if you have any questions or concerns about the medications you are taking.

The following is the primary pharmacy for your medications. Community Care will bill you monthly for your copayments.

Community Care Pharmacy

Community Care, Inc - Pharmacy *

Community Care is a private, non-profit organization that integrates health care and well-being services to provide the wider range of help that seniors and adults with disabilities need. In business since 1977, our services allow people to continue living independently, in their own homes and communities.

Community Care has a contract with the Wisconsin Department of Health Services and is a certified care management organization.
