Community Care, Inc. to offer Family Care starting June 1

Brookfield, Wis. (June 1, 2020) – Community Care, Inc. will begin offering Family Care services in Dane County starting June 1. Family Care is a long-term care program that helps frail elders and adults with disabilities get the services they need to stay in their homes.

Family Care is a Medicaid long-term care program for frail elders, and adults with physical, developmental, or intellectual disabilities. People in the program receive long-term care services to help them live in their own home whenever possible.

“Community Care has been helping adults with long-term care needs for more than 40 years,” said Kenneth Munson, chief executive officer. “By expanding into Dane County, we can further our mission to help older adults and adults with disabilities stay in their homes and remain as independent as possible.”

As a regional, state-certified managed care organization, Community Care currently contracts with the state to deliver Family Care services to more than 10,000 Wisconsin residents in 15 counties.

Family Care services are tailored to each individual’s needs, circumstances, and preferences. Community Care contracts with several long-term care providers that are responsible for maintaining the quality of care and services each member receives.

Community Care, Inc., headquartered in Brookfield, Wis., is a private nonprofit organization that serves the long-term care and health needs of more than 10,000 older adults and adults with physical or intellectual disabilities. Founded in 1977, Community Care is the only Wisconsin managed care organization to offer all three programs of Family Care, Family Care Partnership, and Program of All-Inclusive Care for the Elderly (PACE).
